

Trophy Award Claim

AUK keeps records of all Calendar and Permanent ride results.

Additionally, AUK members' annual points and awards are recorded and computed electronically.

HOWEVER AUK does not keep records of the type of machine used. Trophy awards based on 'special' machines being used therefore require a claim from the rider, as does a claim for the AAA Trophy award.

If you are claiming an award this can be based on the records in the results section of the Audax UK website.

Alternatively please list the events you have completed showing Event start place and date and Brevet number.

For members claiming overseas Randonneur Mondiaux events - see RM Calendar - or extra results omitted from your Rides List, you must give the event date and exact start as in the Calendar, along with evidence of having completed the ride such as a photocopy of the completed Brevet card or a link to an official online list of finishers.
