## Event Regulations – Easter Trail

---

### **Introduction**

The Easter Trail is the ‘younger sister’ of the Easter Arrow i.e. it is a calendar event ridden in teams.

The Easter Trail is run at the same time as the Easter Arrow, on a shorter distance (between 200k and 360k) and with a possible overnight stop.

The Easter Trail follows the pattern of the Trace Vélocio.

The purpose of the Trace is to choose a tourist route and to ride it in daytime hours.

A good team spirit is the key to success!

Teams can start and finish on the same day, or they can start on the day before the meeting, make an overnight stop, and arrive the next day.

Although it is shorter than the Easter Arrow and does not impose night riding, the Easter Trail remains challenging, especially at Easter, when weather conditions are often rough, and we still lack training miles.

Upon arrival, the participants in both Easter Arrow and Easter Trail meet and celebrate together. Organizing a Trail at the same time as the Arrow brings more riders together and makes the party even greater.
