

# Organising AUK banners for your events

**AUDAX UK**  
long distance cycling

Audax UK has designed new banners for organisers to use. This is how you can get your hands on one.

There is a small stock around the country - ask around your region to see if another organiser has one to share with you.

Or you can arrange one for yourself with a printer - please use <https://www.printed.com/> to ensure consistency of colour and materials.

You can find the [files containing the artwork here](#).
